

PVC Blinds

Description

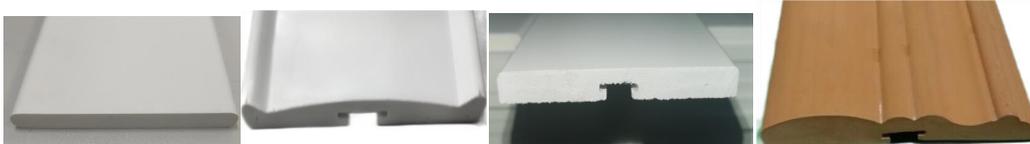

PVC venetian blinds offer good stability in high temperature environments. Great for high moisture areas such as kitchens and bathrooms, they are easy to clean, elegant and are a cost effective venetian blind option.

Specifications

- **Finish:** Smooth, Embossed and Printed

- **Slat length:** Any lengths but suggest to use 2.7m and 3.0m
Slat size: 50mm x 3.0mm or 63*3.0mm
- **Valance (fascia):** 75*6mm Flat or 63*7mm Harbur view or 82.5*8mm Flat or 84*8mm Crown

- **Bottom rail:** standard 50&63x 15mm H Style, trapezoid or Rectangle

Care Instructions

- Remove dust from blinds with a vacuum cleaner or compressed air
- Clean with a damp cloth and allow to dry thoroughly
- Do not scrub, use solvents or any abrasive substance to avoid damaging slat coating

Features and Benifits

PVC venetian blinds are suitable wherever wooden blinds would be applied; however, they are particularly useful in high moisture areas such as bathrooms and kitchens.

Blinds have matching of valances and bottom rails for a perfectly integrated presentation.

Polystyrene Blinds(PS Blinds)

Description

PS venetian blinds offer good stability in high temperature environments. Great for high moisture areas such as kitchens and bathrooms, they are easy to clean, elegant and are a cost effective venetian blind option. PS is about 30% lighter than PVC and make it about the same weight as Basswood but cheaper.

Specifications

- **Finish:** Smooth, Embossed, Printed, film transfered

- **Slat length:** Any lengths but suggest to use 2.7m and 3.0m
Slat size: 50mm x 3.0mm or 63*3.0mm
- **Valance (fascia):** 75*6mm Flat or 63*7mm Harbur view or 82.5*8mm Flat

- **Bottom rail:** standard 50&63x 15mm H Style, trapezoid or Rectangle

Care Instructions

- Remove dust from blinds with a vacuum cleaner or compressed air
- Clean with a damp cloth and allow to dry thoroughly
- Do not scrub, use solvents or any abrasive substance to avoid damaging slat coating

Features and Benifits

PS venetian blinds are suitable wherever wooden blinds would be applied.

Blinds have matching of valances and bottom rails for a perfectly integrated presentation.

Basswood Blinds(Real Wood)

Basswood wooden venetian blinds, are the perfect combination of classic style and modern functionality. Crafted from the finest quality Basswood, these blinds bring a touch of natural warmth and texture to any room. These blinds are reliable, highly functional, and decorative window treatments.

Specifications

- **Finish:** UV Coated(Painted colors or stained colors)

- **Slat length:** Suggest to use 1.8m to 2.4m
Slat size: 50mm x 3.0mm or 63*3.0mm
- **Valance (fascia):** 75*6mm Flat or 63*7mm Harbur view or 82.5*8mm Flat

- **Bottom rail:** standard 50&63x 15mm H Style, trapezoid or Rectangle

Care Instructions

- Remove dust from blinds with a vacuum cleaner or compressed air
- Clean with a damp cloth and allow to dry thoroughly
- Do not scrub, use solvents or any abrasive substance to avoid damaging slat coating

Features and Benifits

Wooden venetian blinds offer a versatile and fashionable window treatment. By simply tilting the blinds, the amount of sunlight entering a room can be controlled. Lacquer-coated with UV Protectant, they are protected against colour fade and water damage. All valances, headboxes, bottom rails, tassels, tapes and cords are colour co-ordinated with the slats.

Basswood blinds are available in natural wood and neutral tones to support any décor. You can get the richness and warmth of the natural timber look to add character to any room.

Marupa Blinds(The Wood with natural grain)

Marupa wooden venetian blinds, are the perfect combination of classic style and modern functionality. Crafted from the finest quality marupa wood, these blinds bring a touch of natural warmth and texture to any room. These blinds are reliable, highly functional, and decorative window treatments.
